## Overview of the HSRP Application

HSRP(High Security Registration Plates) Application is to book the order of the vehicles and assigning the laser codes to those vehicles.

There will be different users for booking the order and assigning the laser numbers i.e. Embossing user.

After logging into the HSRP application with the Order booking user, you need to enter the details of the customer mentioned on the HSRP Authorization slip and book the order. This user will generate the Cash Receipt after booking the order.

After logging into the application with the Embossing user , you need to assign the laser numbers to the orders booked for different vehicles. This user has the rights to make the wrongly assigned laser codes free and reject the laser codes of those plates which has been damaged.
